

### Ethicon Payments

"Just as surgeons are expected to declare their revenues from the medical/device industry through the US Open Payments Data Base, the industry is also expected, by law, to list the moneys. paid out to all collaborative and cooperating surgeons and departments. It has not been easy to obtain such evidence so that one is at a loss determining whether these payments are for personal salaries or for research departments in which they head or work in. Payments on these tables, extend from \$4,315 000 to \$30 000 in the first 16 pages. Beyond, and for 40 pages, payments dwindle down to \$200! No surgical department or research center has been mentioned!"
